Object Faces

Create a face from objects found around your house.

You can use a theme, such as all nature bits, or all kitchen utensils, toys or food.

Lay it out to form a face. Then draw the object or use your imagination like we did in class and created the clown face with bits and pieces we thought would work well.

Everyones creation had something different and all looked amazing.

Give it a try.

They turn out wild and crazy.

Be sure to color them in.

Markers, crayon or colored pencil is recommended.
