

# *Purple Sunset*

Pastel, Paint or Colored Pencil

This can be done in any media.

Start with the lightest streaks of color in the sky. Build up to darker ones. Place in the dark mountains with a lighter purple on the sun side. Make sure the streaks in the water go horizontal.

If doing paint or pastels put your path in next, then the flowers.

Flowers can be just dabs of color or carefully drawn dabs to form leaves and flowers.

Tip: Use a dark and light green and purple then add the bright pink. Make the flowers smaller as they go farther away.

Fade the path off into the shore. ↗
